PRODUCT INFORMATION

29468-7R
Glass Cloth Tape
w/ Silicone Adh.

Product Description:

29468-7R is a double-sided pressure sensitive tape made of closely woven glass fabric and high temperature silicone adhesive on both sides.

Features:

- Non Corrosive
- Excellent Abrasion/Tear Resistance
- Exceptional Flex Strength

Applications:

The 29468-7R is designed for high temperature plasma and flame spray masking. The use of an overlay when grit blasting may be needed. The overlap end is designed not to lift at high velocity grit blasting or thermal spray. Also, can be used as a holding tape for components on circuit boards, inner wraps for coils and transformers and high temperature splicing.

Product Number	29468-7R
Backing Material	Glass-Silicone
Adhesive Type	Silicone
Total Thickness mm (mil.)	0.178 (7)
Backing Thickness mm (mil.)	0.114 (4.5)
Adhesive Thickness mm (mil.)	0.032 (1.25) *Each side
Adhesion to Steel N/cm (lb/in)	4.4 (40)
Tensile Strength N/cm (lb/in)	307 (175)
Elongation (% at break)	<10
Operating Temperature °C (°F)	-73 to +260 (-100 to +500)
Color	White

*The above values are "Typical Values" which have a nominal range about them and are not intended for specification purposes.
